

# HP Latex 3600 Printer

Maximize uptime and overnight printing with a 3.2 m (126 in) workhorse printer

## See robust quality at every speed

- Print at high speeds—120 m<sup>2</sup>/hr (1290 ft<sup>2</sup>/hr)—and suppress banding with HP Dynamic Swath Alignment, OMAS technology
- Superior indoor quality beats UV<sup>2</sup>—smooth transitions, sharp image quality, and preserve media texture
- Handle demanding tiling jobs with confidence—color consistency  $\leq 1$  dE2000 (95% of colors) in tiling mode<sup>3</sup>

## Maximize uptime, stay in control

- HP helps keep you up and running with direct support, including HP remote diagnostics<sup>4</sup>
- Handle production peaks, without risk—this printer is designed and tested to support up to 35,000 m<sup>2</sup> (350,000 ft<sup>2</sup>)/mo<sup>5</sup>
- Stay in control in-plant and online—HP Print Beat application, printer status beacon, HP Latex Mobile<sup>6</sup>

## Help drive down costs

- You can save time and money—with automatic maintenance, no daily printhead maintenance is required
- Minimize labor costs—a single operator can manage up to four printers at the same time
- Help further reduce cost—heavy-duty rolls for fewer roll changes, 10-liter HP ink supplies for overnight runs

<sup>1</sup> Printed in Outdoor mode (3-pass, 6-color, 80%).

<sup>2</sup> Based on HP internal testing of prints produced using Indoor High Quality mode (6-pass, 6-color, 100%) at 77 m<sup>2</sup> (830 ft<sup>2</sup>)/hr compared to similar performance of select UV printers under \$400,000 USD as of March 2017.

<sup>3</sup> The color variation inside a printed job, when printed with tiling optimized media, has been measured to be with maximum color difference  $\leq 1$  dE2000 (95% of colors) in "Optimize for tiling" mode. Tested on Ahlstrom 5087 wallpaper with stable printing condition within a stable media and a nominal printer. Reflective measurements on a 943 color target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. 5% of colors may experience variations above the specs mentioned. Backlit substrates measured in transmission mode may yield different results.

<sup>4</sup> HP remote monitoring and diagnostics requires an upgrade to the service contract with HP.

<sup>5</sup> Based on HP internal testing, the HP Latex 3600 Printer can reliably handle production peaks up to 35,000 m<sup>2</sup> (350,000 ft<sup>2</sup>) per month (in 6-pass print mode). Repeat monthly production at this volume is not recommended and may require additional maintenance.

<sup>6</sup> HP Latex Mobile is compatible with Android™ 4.1.2 or later and iOS 7 or later, and requires the printer and the smart phone or tablet to be connected to the Internet.

## End-to-end sustainability—a better approach

HP Latex Technology delivers all the certifications that matter to your operators, your business, and the environment.<sup>7</sup>

UL ECOLOGO<sup>8</sup>

Using water-based inks eliminates exposure to inks with hazard warning labels and high solvent concentrations, and simplifies ventilation, storage, and transportation requirements.

HP Latex Inks enable more differentiation—odorless prints go where solvent and UV can't.

UL GREENGUARD GOLD<sup>9</sup>

HP is designing end-to-end sustainability into large-format printing.

HP Planet Partners Program<sup>10</sup>  
HP Large Format Media take-back program<sup>11</sup>

<sup>7</sup> Based on a comparison of HP Latex Ink technology to competitors with leading market share as of December, 2013 and analysis of published MSDS/SDSs and/or internal evaluation. Performance of specific attributes may vary by competitor and ink technology/formulation.

<sup>8</sup> Applicable to HP Latex Inks. UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see [ul.com/EL](http://ul.com/EL)).

<sup>9</sup> Applicable to HP Latex Inks. UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit [ul.com/gg](http://ul.com/gg) or [greenguard.org](http://greenguard.org).

<sup>10</sup> Visit [hp.com/recycle](http://hp.com/recycle) to see how to participate and for HP Planet Partners program availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult your local waste authorities on appropriate disposal.

<sup>11</sup> HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See [HPLFMedia.com/hp/ecosolutions](http://HPLFMedia.com/hp/ecosolutions) for details.

<sup>12</sup> Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks. Estimates by HP Image Permanence Lab on a range of media.

<sup>13</sup> Printing double-sided backlit applications requires the optional HP Latex 3000 Double-sided Day Night Kit. Front-to-back image registration accuracy of 2 mm or better when using certified PVC banner and paper media, see [hp.com/go/mediasolutionslocator](http://hp.com/go/mediasolutionslocator).

<sup>14</sup> HP Latex Mobile is compatible with Android™ 4.1.2 or later and iOS 7 or later, and requires the printer and the smart phone or tablet to be connected to the Internet.

**HP Latex Optimizer**  
High image quality at high speed

### 10-liter HP Latex Inks

Odorless prints, with scratch resistance comparable to hard-solvent inks on SAV and PVC banner<sup>12</sup>

### HP OMAS & spectrophotometer

Reliable print quality—get the color and quality you expect

### HP Latex printheads

1200 dpi native resolution—high image quality over the life of the printer

### High-efficiency curing

Instant dry—prints are completely dry immediately after printing

### Automatic maintenance

Automatic drop detection and nozzle replacement

# HP Latex 3600 Printer

## Heavy-duty roll handling

Load rolls up to 300 kg (660 lb) and 40 cm (15.75 in) in diameter

## Dual-roll split spindles

Print two rolls in parallel up to 200 kg (440 lb) each; quick, single-operator roll change

## In-line slitters

Reduce bottlenecks in finishing and achieve quicker turnaround times

## Proofing lights

Output and print zone LED lighting for on-the-fly visual inspection

## Ink collector kit (optional)

Print unlined mesh banner and porous textiles

## Double-sided day night kit (optional)<sup>13</sup>

Easily produce double-sided backlit applications for color-accurate outdoor advertising displays in any light—front or backlit

## Printer monitoring tools

Improve operational efficiency with the printer status beacon, HP Latex Mobile,<sup>14</sup> HP PrintBeat

## Internal print server

Efficiently manage the job queue and settings
